

LOUISIANA COMMUNITY DEVELOPMENT NEWSLETTER

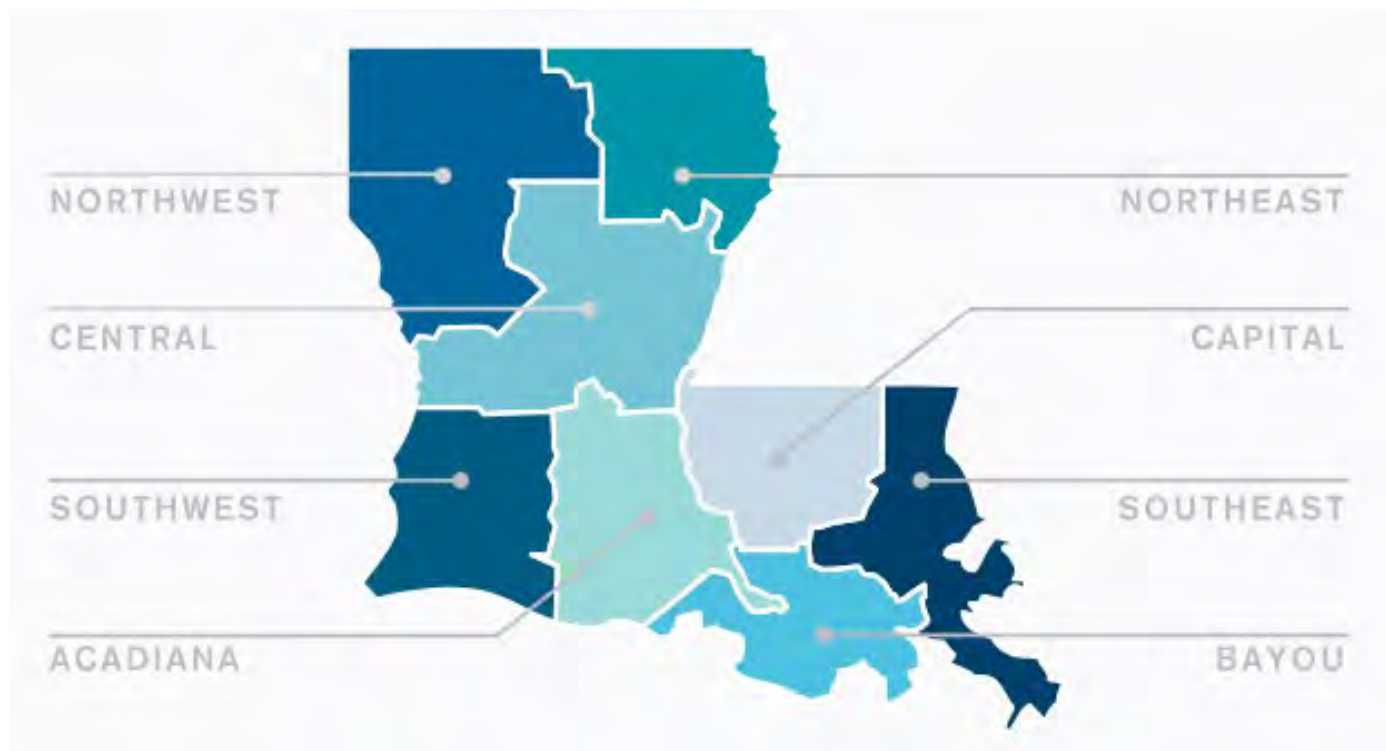

Resources to Help You Grow

Whether you are new to economic planning or have been doing it for a while, sometimes when you start a new project you just don't know where to start or what your next move should be. Knowing what resources are available to you is a great place to start. Louisiana has an extensive network of economic development organizations and partners dedicated to helping foster economic development in communities statewide.

When you visit Louisiana Economic Development's website, you can filter those resources depending on your needs. Here you can access federal funding resources, as well as information on economic development, public policy and government organizations that are committed to supporting Louisiana communities.

Many of the same allies and economic development organizations are also dedicated to helping grow local businesses. Click on the map below to search business resources by region. Here you will find localized information including chambers of commerce and planning commissions.

LED is committed to supporting communities and businesses in every corner of the state. For more resources, please visit our website opportunitylouisiana.gov.

To begin building your community support network, click [here](#) to visit our partners page.
